Welcome

Introduction

Noor Scientific & Trade LLC is a leading Egyptian company specialized in the marketing and distribution of high-tech scientific products across industrial, clinical, research, construction, & environmental sectors. Since its establishment in 1991 with a small team, the company has grown to include over 100 professionals, five specialized sales divisions (plus three sections), and a robust After-Sales Service department.

With decades of experience & thousands of satisfied clients, Noor Scientific has built a strong reputation for quality, reliability & customer satisfaction. Today, it proudly represents top international manufacturers & maintains one of Egypt's most comprehensive inventories of premium scientific solutions.

About Us

Our Story

In the heart of Cairo, in 1991, a seed was planted, a seed that would grow into a mighty tree, known today as Noor Scientific & Trade. Founded by the visionary Noor family, this ambitious endeavor began with a dedicated team of six employees & a singular focus on the Biotechnology division. Over the years, Noor's activities have expanded, having now several divisions reaching new horizons & spreading across various fields: Healthcare, Science, Industrial, Environmental, Construction and Agricultural.

In 2024, Noor Scientific & Trade allied with Noor Scientific Holding, based in the UAE and under the stewardship of the Noor family. This alliance symbolizes the tree's full bloom, with its roots in Cairo and its branches now casting a wide canopy over the entire region. Noor Scientific & Tarde's slogan, "Tree of Unwavering Success," encapsulates its journey. Just as a tree grows stronger and more resilient over time, so too has Noor Scientific & Trade. The deep roots provide stability, the strong trunk represents the core values, and the ever-reaching branches & fruitfulness symbolize the constant growth and advancement.

Vision & Mission

Our Vision

To be and remain the most trusted partner to our clients across all the sectors we serve delivering services aligned with their vision. Collaborating with top global suppliers, providing the most suitable technologies and unwavering customer care.

Our Mission

To continuously deliver the best and latest technologies with integrated solutions to our customers in the served regions through our various divisions: Biotechnology, Pharma & FMCGs Process Solutions, Machinery & Thermal Solutions, Electromechanical, & Medical Technologies. Leveraging the best teams and regional expertise, partnering with the leading global suppliers in the Healthcare, Science, Industrial, Agricultural, Environmental, & Construction fields to meet the required solutions, providing exceptional after-sales service & customer care.

Company Divisions

At Noor Scientific & Trade LLC, each division is strategically developed to address specific sector needs through innovation, expertise, & specialized solutions. Our divisions operate with a clear focus on delivering high-quality technologies, tailored services, & long-term value to our clients in sectors such as pharmaceuticals, applied technologies, scientific research, and industrial development. Through our deep sector knowledge & commitment to excellence, we have been able to advance and make a tangible impact.

Biotechnology Division

The Biotechnology Division of Noor Scientific & Trade LLC, established in 1991 as the company's first division, has been a cornerstone in delivering advanced high-tech products to Egypt.

Like a carefully nurtured seed, the division has grown to support scientists and researchers in genetic engineering, molecular biology, environmental studies and related fields, contributing to advancements in medicine, agriculture, and scientific research.

Electromechanical Division

With Egypt's construction sector experiencing rapid growth, Noor Scientific & Trade LLC established the Electromechanical Division to support this booming industry by providing essential, advanced tools for successful project implementation. Specializing in water, HVAC, and firefighting solutions, the division offers a comprehensive range of products, including HVAC equipment, chilled water system components, commercial kitchen ecology systems, and UL/FM - certified firefighting systems for both commercial and industrial applications.

Medical Technologies Division

Noor Scientific & Trade LLC's Medical Technologies Division is dedicated to advancing healthcare by providing affordable, cutting-edge solutions that enhance patient care. Specializing in cost-effective imaging diagnostics and lifesaving equipment, the division ensures that modern medical technologies are accessible to healthcare providers and patients alike.

It supports improved patient outcomes across many clinical fields such as vascular surgery, cardiology, and radiology.

Pharma & FMCGs Process Solutions Division

The Pharma & FMCGs Process Solutions Division of Noor Scientific & Trade LLC plays a pivotal role in transforming visionary ideas into reality by offering comprehensive solutions across the entire technical process, from research and development to full-scale production. Rooted in a deep understanding of the complexities of process development, the division is committed to optimizing efficiency, effectiveness, and sustainability.

Industrial Solutions Division :

(3 Sub-sections)

The Industrial Solutions Division provides advanced equipment and fully integrated systems designed to meet the demanding needs of manufacturing, energy, and process industries. Leveraging state-of-the-art technologies, the division delivers high-performance solutions that drive operational efficiency and sustainability.

It includes 3 sub-sections, which are:

- **Thermal Process Solutions Section**
- **Machinery Section**
- **Performance Engineering Section**

Thermal Process Solutions Section

Specializes in delivering energy-efficient thermal technologies designed to meet the evolving needs of various industrial applications.The section is dedicated to improving process reliability, enabling customers to achieve high-performance thermal management with reduced environmental impact across a wide range of sectors.

Machinery Section

Delivers advanced manufacturing machinery & automation technologies designed to enhance operational reliability across industrial sectors. It provides innovative equipment solutions supporting consistent high-quality output. It helps customers achieve greater manufacturing performance through reliable systems.

Performance Engineering Section

The section delivers performance engineering capabilities through advanced tool steels, industrial knives, & precision measurement & validation technologies, enhancing manufacturing reliability, quality consistency, process control, and service life across demanding production environments.

Our Services

1 - After Sales Service And Maintenance Center

After-sales maintenance & technical support services are the main concerns of Noor Scientific & Trade LLC. The after-sales & maintenance department provides a comprehensive suite of services encompassing product installation, commissioning, initial operation, customer training, repairs, spare parts replacement, and beyond. We closely monitor customer feedback & conduct periodic performance evaluations to identify areas for improvement & address any gaps in service delivery. This feedback-driven approach allows us to refine our processes, implement corrective measures, and continually enhance the proficiency of our after-sales service team.

Our team has garnered accreditation from a multitude of our suppliers, granting us the authority to offer a range of qualification services. These services encompass validation, verification, and calibration, ensuring that our customers' systems and equipment adhere to the highest standards of quality, accuracy, and reliability.

2 - Calibration Lab

Our company has recently expanded its activities by introducing a new service “Laboratory Equipment Calibration” through the establishment of a calibration lab that meets all professional standards to ensure optimal performance.

Noor Scientific & Trade’s calibration lab has obtained all necessary accreditation certificates for this activity from the regulatory authorities in Egypt. It has been accredited by EGAC marking a significant milestone in the company’s commitment to delivering precision and excellence. This state-of-the-art facility is equipped with cutting-edge tools ensuring the highest level of accuracy and reliability. With this achievement, Noor Scientific & Trade expands its service portfolio, offering its valued customers certified calibration solutions that enhance operational efficiency and quality assurance across various industries.
